Pressure Infusion Bags

Photo	Description	Options	Part Number
	<p>Disposable, single-use pressure infusion bags reduce the risk of cross-contamination common with reusable bags. Easy to use, includes hook for hanging fluid bag, bulb to inflate bags and pressure relief valve which protects the bag from over-inflation (320mmHg pressure relief). Bag is transparent to easily view the IV bag and its fluid level. Easy bag loading and unloading, color coding allows for identification, patient customization box provides area to write patient and drug information. 0-300mmHg gauge is color coded and allows for one-hand inflation. Latex free. Available in 500mL and 1,000mL options.</p>	500mL	DPI-500
		1000mL	DPI-1000

Semi-Reusable Pressure Infusion Bags

Photo	Description	Options	Part Number
	<p>Semi-reusable pressure infusion bags are more durable than disposable bags but less expensive than reusable bags. Encourages frequent disposal of bags without the expense of fully-disposable pressure infusion bags; these bags can be reused if desired. Easy to use, easy to clean, includes hook for hanging fluid bag, bulb to inflate bags and pressure relief valve which protects the bag from over-inflation (320mmHg pressure relief). Easy bag loading and unloading, color coding allows for identification, patient customization box provides area to write patient and drug information. 0-300mmHg gauge is color coded and allows for one-hand inflation. Latex free. Available in 500mL and 1,000mL options in dark grey.</p>	500mL	HPI-500
		1000mL	HPI-1000

Reusable Pressure Infusion Bags

Photo	Description	Options	Part Number
	<p>Durable, reusable pressure infusion bags are easy to use, easy to clean, includes hook for hanging fluid bag, bulb to inflate bags and pressure relief valve which protects the bag from over-inflation (320mmHg pressure relief). These reusable bags are more durable than disposable infusion bags and have the benefit of a built-in bladder. The parts can be replaced as the design includes threaded connectors to easily remove and change parts. Easy bag loading and unloading, color coding allows for identification, patient customization box provides area to write patient and drug information. 0-300mmHg gauge is color coded and allows for one-hand, precise inflation. Latex free. Available in 500mL and 1,000mL options in dark blue.</p>	500mL	PI-500
